Importance: Normal
Subject: Soil Sampling in Silverton, CO
Start Date/Time: Wed 5/7/2014 5:30:00 PM
End Date/Time: Wed 5/7/2014 7:00:00 PM

When: Wednesday, May 07, 2014 11:30 AM-1:00 PM (UTC-07:00) Mountain Time (US & Canada).

Where: TBD

Note: The GMT offset above does not reflect daylight saving time adjustments.

~~*~*~*~*~*~*~*~*

All - After our meeting with the San Juan County Commissioners in Silverton a couple of weeks ago where we discussed with the County the idea of placing the Upper Animas mining district on the NPL, Martin Hestmark asked that we develop a soil sampling plan for the town of Silverton that he can take back to a 2nd meeting with the community in mid-to late July. We know of at least 3 smelters that operated in Silverton. Until our meeting with the County, EPA had not broached the subject with the community as a potential for human health risk given the community's general opposition to listing.

There are a number of purposes for conducting soil sampling - Site Assessment/HRS scoring, Removal, Remedial, Risk Assessment. The purpose in meeting is to discuss how to develop a soil sampling plan (QAPP/SAP) that meets as many of these needs as possible to maximize efficiency and minimize the # of sampling visits to any specific residential property.

In order to accommodate Sabrina's training schedule and have her input, I have pick a time over the lunch hour on Wednesday, May 7th. Hopefully, we can keep the meeting to an hour.

Please let everyone know if this time/day will work for you. Thank you

Paula Schmittdiel
